

PK31™

The PK31™ lounge chair and sofa series is a prime example of Poul Kjærholm's ability to create furniture that can be tailored to a room and still retain its identity as a single piece of furniture. The PK31 is, in other words, also a self-contained freestanding object and a realization of Poul Kjærholm's quest to find an ideal form. This is confirmed by the chair, which defines a cube of 76 cm on a side, with the seat height at the midpoint. The PK31 series combines elegant luxury with comfort.

DESIGN

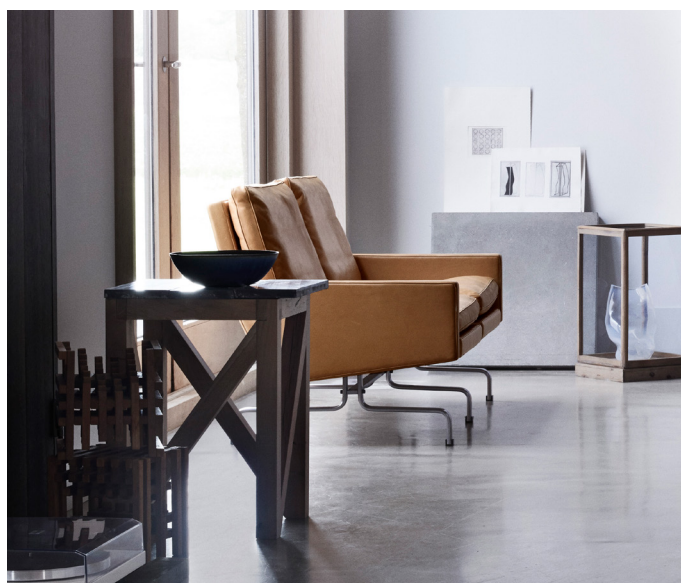

Poul Kjærholm, 1958.

POUL KJÆRHOLM 1929-1980

Poul Kjærholm was a trained cabinet maker and continued his studies at the Danish School of Arts and Crafts in Copenhagen. He had a particular interest in different construction materials, especially steel, which he considered a natural material with the same artistic fineness as other natural materials.

Poul Kjærholm was first employed at Fritz Hansen for about a year, where he designed a number of noteworthy chair prototypes. In 1955, Poul Kjærholm initiated his collaboration with manufacturer Ejvind Kold Christensen, which lasted until Kjærholm's death in 1980. In 1982, Fritz Hansen took over the manufacture and sales of "The Kjærholm Collection", which was developed over the period 1951 to 1967.

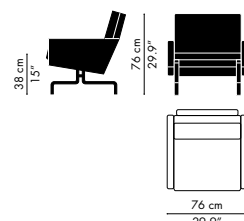

UPHOLSTERY
