

FRITZ HANSEN

PK60™
PRODUCT FACT SHEET

PK60™

Designed in 1952 and never put into production until now, the PK60™ is a significant piece of mid-century modern design history. Applying design and aesthetics to everyday functional objects, Poul Kjærholm looked to modern art – most notably the works of Japanese sculptor Isamu Noguchi – to shape the table's sweeping forms. A clear glass top rests on a black coloured ash or Oregon Pine base, shaped from three interlocking pieces of wood veneer that put craftsmanship techniques to their truest test. The exclusive anniversary design brings sophistication to spaces, as a solo statement piece or as part of a larger interior setting.

DESIGNER / YEAR OF DESIGN

Poul Kjærholm, 1952

DESIGNER

Poul Kjærholm was a trained cabinet maker and continued his studies at the Danish School of Arts and Crafts in Copenhagen. He had a particular interest in different construction materials, especially steel, which he considered a natural material with the same artistic fineness as other natural materials.

Poul Kjærholm was first employed at Fritz Hansen for about a year, where he designed a number of noteworthy chair prototypes. In 1955, Poul Kjærholm initiated his collaboration with manufacturer Ejvind Kold Christensen, which lasted until Kjærholm's death in 1980. In 1982, Fritz Hansen took over the manufacture and sales of "The Kjærholm Collection", which was developed over the period 1951 to 1967.

MODELS

PK60

MATERIAL

Tabletop: Glass (Low iron, fully tempered)

Base: Pressure moulded veneer

Spacers: Cork

Glides: Hytrel 5526 (polyester)

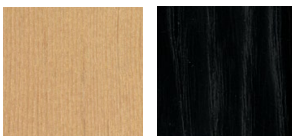

Materials in %:

86% Glass

14% Veneer

COLOURS

The base comes in the following variants:

LACQUERED
OREGON PINE

BLACK
COLOURED ASH

MADE-TO-ORDER

N/A

CERTIFICATION

PEFC™ PEFC/09-31-068: All wood components are made from PEFC-certified wood.
