

AAC 226

PRODUCT FACT SHEET

AAC 226

DESIGN BY HEE WELLING & HAY, 2022

Featuring a four-legged steel frame with slim legs, the AAC 226 has a sleek, elegant expression. Retaining the fundamental idea shared by the AAC collection, this model is characterised by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The functional base features angled legs that slant slightly outwards for optimal stability and is available in black powder-coated and chrome finishes, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colours and multiple front upholstery options. The multitude of variants and design combinations give this series great versatility in a wide range of corporate, public, and private contexts.

HIGHLIGHTS

- Part of a multi-functional indoor family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman, and a sofa.
- The curved shell has a slightly higher back and a deep generous seat.
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table.
- All shells are made from 100% recycled post-consumer plastic.
- A majority of the unupholstered models are certified with the EU Ecolabel across the whole chair and bar stool series.
- Available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers.
- The 4-leg steel base comes in two finishes.
- Other base options are: Moulded plywood base, solid wood base, 4-star swivel base, and 5-star swivel base with wheels and gas lift.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

DIMENSIONS

WIDTH 59 CM
DEPTH 54 CM

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colours vary slightly from batch to batch. Marks and irregularities on the surface are a natural part of the material and may occur.

FABRIC & LEATHER UPHOLSTERY

Please see our Fabric Overview for approved standard fabrics.

Please note that front upholstery is not available with walnut base.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood, and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability, and safety.
