SOFT EDGE COLLECTION

Iskos-Berlin's Soft Edge chair and stool series was originally created by exploring innovative developments in moulded plywood techniques. The Copenhagen-based design duo collaborated with HAY to push the boundaries of industrial moulding, combining strong curves with extreme lightness to create a three-dimensionality that is not normally possible with 2D plywood. All the edges of the ultra-thin, soft-formed seats are bent away from the body, designed to optimise human-centric comfort for constant shifting and movement.

The series has since been extended to include chairs and stools with frames in wood or steel with different finishes, while the seat is available in 2D plywood, upholstery or plastic in different colours.

A photograph of a row of black chairs in a room with a wood-grain floor and dark walls. The chairs are arranged in a line, and the text "SOFT EDGE 10" is overlaid in the center. The chairs have a simple, modern design with a curved backrest and a flat seat. The floor is made of large, square tiles with a wood-grain pattern. The walls are dark and appear to be made of wood or a similar material. The lighting is soft and even, highlighting the texture of the chairs and the floor.

SOFT EDGE 10

- SOFT EDGE 10 -

DIMENSIONS

W50 x D52,5 x H79 cm

Seat height 47,5 cm, Seat depth 44 cm

MATERIALS

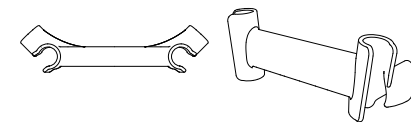

SEAT AND BACK / Moulded plywood
Top veneer in oak

BASE / Ø16 mm steel tube

With standard gliders / optional felt gliders

OPTIONS

Linking device (Plastic black). Please note, the linking device is not premounted to the frame.

A workshop scene featuring a wooden workbench on wheels and a metal stool. The workbench has a thick wooden top and a metal frame with casters. A wooden stool with a round top and metal legs is positioned in front of it. The floor is made of wide wooden planks. In the background, there's a window and various workshop items like a cup, a marker, and some wood. The text "SOFT EDGE 30" is overlaid in the center in a large, white, sans-serif font.

A modern, minimalist workspace featuring a dark wood desk with a white top, supported by metal legs. A wooden stool with a light-colored seat and four legs (two red, two grey) is positioned in front of the desk. The room has white walls, a wooden floor, and a window with a white frame. A large, multi-drawer cabinet is visible on the left side of the frame. The text "SOFT EDGE 70" is overlaid in the center of the image.

CHAIR TROLLEY FOR SOFT EDGE

CHAIR TROLLEY FOR SOFT EDGE 10 & SOFT EDGE 12

Designed to facilitate transportation and provide a functional storage solution for stacking multiple Soft Edge 10 and 12 chairs, the Chair Trolley features a compact frame with wheels, which makes it easy to move around. The trolley can be used to stack all Soft Edge 10 chairs with or without upholstery and Soft Edge 12 chairs without upholstery – allowing varying stacking heights depending on the selected model.

DIMENSIONS

W55 X D81 X H48 cm

MATERIALS

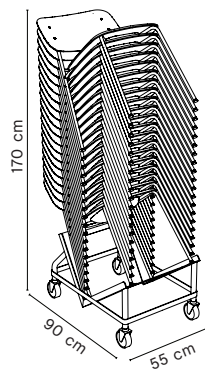

Black powder coated steel

PRODUCT DETAILS

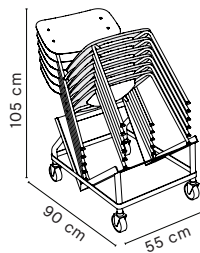

Incl. 4 x Soft wheels (2 rear wheels with brake)

VELCRO® band is placed inside the L-profile to protect the chair legs

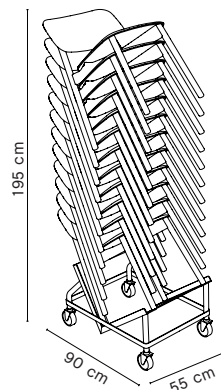

**DIMENSIONS
WHEN STACKED ON TROLLEY**

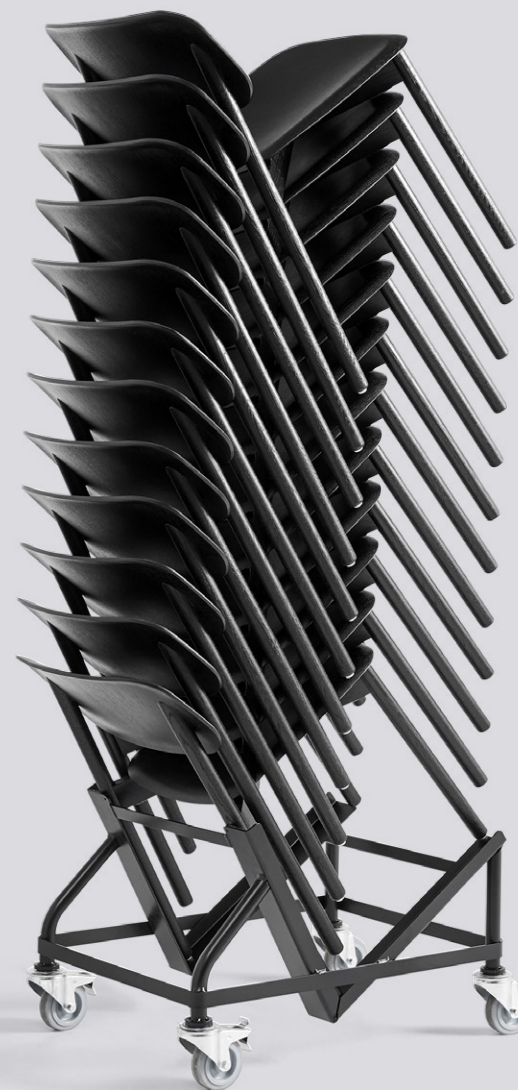

SOFT EDGE 10
Max. 20 pcs.
H170 x W55 x D90 cm

SOFT EDGE 10 W. UPHOLSTERY
Max. 6 pcs.
H105 x W55 x D90 cm

SOFT EDGE 12*
Max. 12 pcs.
H195 x W55 x D90 cm

*Soft Edge 12 W. upholstery / Stacking is not possible

A close-up photograph of a wooden chair's seat and backrest. The chair is made of light-colored wood with a visible grain. A black plastic linking device is attached to the underside of the seat and the backrest, connecting them. The device has a T-shaped structure with a central vertical post and two horizontal arms. The background is a plain, light gray color.

**SOFT EDGE 10
LINKING DEVICE**

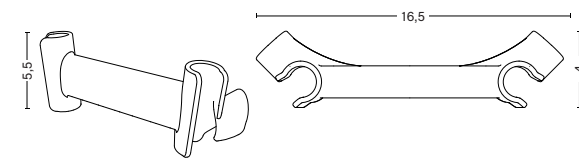

- SOFT EDGE 10 LINKING DEVICE -

SOFT EDGE 10 LINKING DEVICE

The linking device is a functional component designed to connect multiple chairs together. Once the device is mounted onto the frame, the chairs are securely linked together with an equal distance between them, which is ideal for creating uniform rows at conferences and other mass seating events.

DIMENSIONS

W16,5 X D4 x H5,5 cm

W51,4 X D52,5 x H50 cm

Seat height 47,5 cm, Seat depth 44 cm

Please note, the linking device is not premounted to the frame.
