

Innes Wood Soap Care Kit 600ml

A complete set for maintenance of soap-treated wood for Carl Hansen and other brands of tables. Keep your beloved oak table, chairs and sideboards in pristine condition with regular treatment.

The kit contains:

x1 Guardian Protection Natural Wood Soap 600ml

x1 Osmo Lint Free Cloth

x1 Foam Sponge

x1 Double Sided Abrasive Sponge Pad

Direction for use:

Guardian Wood Soap is used for treatment and protection of untreated or soap treated wood.

The Wood Soap is made from palm-kernel oil and coconut oil and does not contain preservatives, colouring agents, optical brighteners, bleaching agents or similar substances.

Guardian recommends you to treat the furniture 6 times a year or according to the directions of the furniture producer.

If the wood is dirty or soiled it should be cleaned using Guardian Wood Cleaner.

Apply an even layer of wood soap to the entire item of furniture. Always work in the direction of the grain.

Allow the wood soap to soak in for about 5 - 10 minutes and then polish with a dry, lint-free cloth. When treating table tops, remember to treat both sides.

Any surplus soap remaining on the furniture after treatment can be wiped off with a damp cloth.

When the soap has dried, and if the wood has become uneven or a smoother/shinier surface is required, you can rub it down with fine sandpaper (200 grit or higher).

Shake before use.

Keep out of the reach of children.

Always test the product on a piece that is not visible before use.
