ARMCHAIRS

2002

Jeffrey Bennett

Description

The seat that flows uninterruptedly into the armrests is the hallmark of this small armchair and relaxation chair. The former, with aluminium swivel base and four spokes, combines elegance and comfort. The latter, which is also swivel and has a matching ottoman, is larger with a headrest with magnet for adjustments. There are two aluminium bases available, one with four spokes and one circular.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery
