VLA62 RADIO HOUSE MIRROR

Following the revival of his reimagined Vega Chair and Foyer Series, the continuation of a collaboration with Vilhelm Lauritzen Architects brings an elegant, modernist mirror to light for a wider audience. The VLA62 Radio House Mirror was designed in 1945 for the Royal Retiring Room in the Radio House, Copenhagen. Crafted from FSC™-certified solid oak for a more contemporary, Nordic aesthetic, this full-length mirror is assembled from eight carved pieces that are matched to ensure the distinctive grain is continuous. Sanded by hand for a smooth, tactile finish, a deep, concave frame features organic corners that almost embrace the mirror. A substantial design with a sculptural expression, the Radio House Mirror adds warmth and character to the hallway or bedroom.
