BETWEEN LINES  
PRODUCT FACT SHEET

# BETWEEN LINES

Made with comfort, quality and durability in mind, the Between Lines series has a restful expression which makes it perfect for enjoying life slowly in the great outdoors. Natural in both function and design, the Between Lines Deck Chair is a modern take on the American Adirondack. It features long, angular lines that are perfectly positioned for comfort.

## SPECIFICATIONS

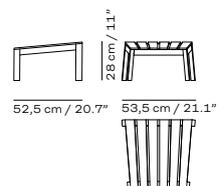

**Wood:** New wooden, teak furniture has natural colour differences found in the freshly cut wood. Once the furniture has been exposed to the sun, these colour differences will even out. As a natural part of the aging process, the surface of teak will change when first being exposed to rain; this is the first stage of a process of wood that ages with beauty.

# CUSHIONS

## DESCRIPTION

Detailed to resemble the wooden slats of the series' deck chair, the Between Lines cushion is made from Oeko-Tex®-certified, weather-resistant fabric to retain its beauty come rain or shine. The fast-drying, breathable design is filled with supportive quick-dry outdoor foam for supreme sitting comfort.

## SPECIFICATIONS\*

The quickdry outdoor foam provides a firm and comfortable seat that retains its shape year after year. The open-cell structure allows both water and air to pass through ensuring the cushion dries exceptionally quickly, even after a heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.

## WEIGHT

1,4 kg / 3.1 lb

## COUNTRY OF ORIGIN

Produced in: Poland

## PRE-ASSEMBLED

Yes

\*For details specific to UK/IE go to p. 6.

## PACKAGING

The units are wrapped in a plastic bag.  
All packaging material can be recycled.

#### IMPORTANT NOTE!

Under current UK law, Fritz Hansen is not able to provide outdoor cushions and pillows with the same filling as the regular collection. We still offer cushions and pillows in an outdoor textile with weatherproof properties, but the filling is not weatherproof due to stringent (indoor) fire regulations. We therefore recommend that you bring cushions and pillows indoors in heavy rain and when they are not in use.

The FR cold foam provides a firm and comfortable seat that retains its shape year after year. The FR cold foam is not weather resistant, and therefore it is recommended to store the cushions indoor when not in use and during heavy downpour. To ensure cushions remain beautiful over time, it is good practice to avoid them being left wet for prolonged periods, e.g., by turning them upright to let water run off or storing them in a dry environment.
