MATERIAL

Elements: Chrome-plated brass or polished brass (untreated)

CLEANING AND CARE

Wipe off dust with dry soft cloth. Remove stains with soft cloth dampened in lukewarm water added a mild detergent. Do not use detergents containing abrasives or solvents. The untreated brass part will start to patinate when it is being exposed to carbon dioxide and other substances, which will result in differences in colour and surface. This is part of the product's unique look but can be polished away.

PRODUCTION PROCESS

The KAISER idell™ 6722-P is made in steel and brass. The shade has a powder coated high-gloss or matte finish. The textile cable is particularly well integrated into the design and gives the lamp its finishing touch. The chrome-plated lamp elements consist of silver-soldered and hand-polished brass. The top of the swivel joint is embossed with "ORIGINAL KAISER-idell".
