N02™ RECYCLE
Product Fact Sheet

N02™ RECYCLE

N02™ Recycle is crafted with household plastic waste collected, processed and recycled in central Europe. A strong, comfortable and considered chair by Japanese studio nendo, its signature design feature was inspired by a simple crease of paper on the designer's worktable. The chair series is available in upholstered, front upholstered, with upholstered seat, and non-upholstered versions, and comes in a range of bases, from four legs to sledge to bar and counter heights. All non-upholstered models, including bar and counter heights, are stackable thanks to the chair's open base design.

PRODUCT TYPE

Chair / Armchair

ENVIRONMENT

Indoor

DESIGNER / YEAR OF DESIGN

nendo, 2019

ABOUT THE DESIGNER

nendo is a Tokyo-based design studio founded in 2002 by Oki Sato. Working across furniture, product design and architecture, the studio has realised projects for clients world-wide. nendo's work has been recognised with numerous awards, including the Red Dot Design Award and honours from Wallpaper* and Dezeen.
