

PK25™

The PK25™ was designed by Poul Kjærholm in 1951, for his final graduation project at the School of Applied Arts in Copenhagen. The PK25, also known as the “Element” chair, is a fine example of the young Kjærholm’s eagerness to work with common, industrial materials. Kjærholm was determined to reduce the chair to a single piece of each material, resulting in the overarching hallmark of the chair: the continuous and rather complex steel frame that is bent from a single piece without joints and connections.

REPUBLIC OF **Fritz Hansen**®

PRODUCT DESCRIPTION

The frame of the PK25™ lounge chair is made from a single piece of matt chromed spring steel. A long length of flag halyard wound around the seat and back of the curved steel frame forms in simplicity the chair. The flag halyard is made from line with a nylon core. It is available in the colours black and natural.

POUL KJÆRHOLM 1929-1980

Poul Kjærholm was a trained cabinet maker and continued his studies at the Danish School of Arts and Crafts in Copenhagen. He had a particular interest in different construction materials, especially steel, which he considered a natural material with the same artistic fineness as other natural materials.

Poul Kjærholm was first employed at Fritz Hansen for about a year, where he designed a number of noteworthy chair prototypes. In 1955, Poul Kjærholm initiated his collaboration with manufacturer Ejvind Kold Christensen, which lasted until Kjærholm's death in 1980. In 1982, Fritz Hansen took over the manufacture and sales of "The Kjærholm Collection", which was developed over the period 1951 to 1967.
