Overlap Suspension 2

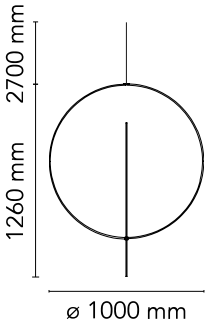

Designed by Michael Anastassiades, 2018

Halogen - 2 x 105W

Suspension lamp emitting diffused light. Internal structure in white powder-coated steel. Diffuser in Cocoon resin with transparent protective spray finish. Interlocking ring in polished, gold-plated galvanic steel. Die-cast zamak ceiling rose in polished, gold-plated galvanic finish.

Designed by Michael Anastassiades, Overlap is a contemporary tribute to Flos's iconic use of the Cocoon technique, a method originally borrowed from US industry and ingeniously applied to lighting. The two interlocking rings appear to press against the soft membrane, barely revealing the structure beneath. Inspired by both geometry and tension, the lamp invites curiosity by concealing the space where the forms intersect. Overlap is a study in contrast captured in a floating, luminous volume.

In our constantly evolving world and business, technical upgrades happen every day. This means all product specifications and data are subject to change without warning in order t improve reliability, function, performance or otherwise. We make every effort to ensure the accuracy of our product images, however due to different lighting and screens used for viewing, the colours may vary. Images are indicative of the quality and style of the product but may not represent the precise details of the product you receive. This is because we are constantly working to make improvements. For aesthetic reasons, cables and/or electrical elements are often not shown. Refer to technical data sheets for all technical data. Images and colours are not part of any contract or warranty in any way.
