

DESIGN BY SHANE SCHNECK

HAY

# BOWLER

## HIGHLIGHTS

- Bowler is a compact side table
- Available in a variety of colours
- Bowler has a simple construction consisting of a flat-pack steel frame and granite base

# BOWLER DESIGN BY SHANE SCHNECK

Shane Schneck's Bowler Table is a compact side table that is ideal for small spaces. The single tube that extends upwards creates a defined profile, which doubles as a functional handle too. The stem, handle and tray are made in powder coated steel, with a solid granite base that provides stability, yet it is still lightweight enough to move around. Bowler comes flat packed and is easy to assemble, making it suitable for all kinds of domestic and corporate environments.

Shane Schneck is an American designer based in Sweden, where he founded his Office for Design studio in Stockholm in 2010. International in his attitude and outlook, he previously lived and worked in Milan with the Piero Lissoni studio. His work has received international recognition, winning Red Dot, iF and Wallpaper design awards. His design ethos is to create simple yet innovative products that challenge industry standards. His products often contain an element of surprise, or are somehow playful or bold in their conception. Perhaps in their colour, form or use of materials. For HAY, Schneck has designed Cap, Rhom Trivet, Lup, Analog, Field, Porter, Bowler, Butler, Bernard and Tamoto Bed.

**SUSTAINABILITY**

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
