- Multi-functional family of tables and benches in different shapes, sizes, materials and colours
- Variability of nanolaminate colours and frame finishes
- Suitable for a wide variety of private and public environments
- Qualified for contract use

CPH DEUX 220 TABLE DESIGN BY RONAN & ERWAN BOUROULLEC

Part of the Copenhagen range designed by Ronan and Erwan Bouroullec, the CPH Deux 220 Table shares the same uncluttered profile and strong identity that are consistent with the rest of the collection. This variant features a round tabletop that softens the engineered expression, making it equally suitable for intimate meetings and larger, café-like environments, with an ability to blend into private homes as well as public spaces. The table comes in two different sizes with a solid beech or oak frame in various finishes, and the plywood tabletop has different Nanolaminate colour options. Tables with four legs are EU-ecolabelled and made from FSC-certified wood with a water-based lacquer.

Ronan & Erwan Bouroullec the Paris-based design brothers from Brittany have been working together since 1998. Ronan is a graduate of the École Supérieure des Arts Décoratifs in Paris and Erwan attended the École Nationale Supérieure des Arts in Cergy before starting their own studio. They have transformed the design industry and offered new perspectives of materiality and purpose. For HAY, they have designed the Palissade Collection, Copenhagen Collection, Can Sofa, Élémentaire Chair, Passerelle Table and Pier System.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
