

DESIGN BY WIM RIETVELD

HAY

PYRAMID TABLE 01

HIGHLIGHTS

- Multi-functional family of tables and benches in different shapes, sizes, materials and colours
- The table features a solid oak tabletop with steel-sheet legs. Support bar pre-mounted underneath the tabletop
- The table is available as a rectangular table (Pyramid Table 01 and 02) and a round table (Pyramid Café Table 21)
- The Pyramid Table 01 is stackable with up to 4 pcs.
- Suitable for a wide variety of private and public environments
- Qualified for contract use

PYRAMID TABLE 01

DESIGN BY WIM RIETVELD

Created to be adaptable, light and strong, the Pyramid Tables are the last word in cutout sheet steel construction. Originally created by Wim Rietveld while working at Ahrend in the 1950s, the collection has been relaunched by HAY together with Ahrend. When initially launched in the '50s, it was regarded as a triumph in its innovative use of sheet steel, giving new direction for use in organically shaped products. Today, both as individual pieces and as a collection, it is notable for its sparing use of materials, simplistic construction and for being light enough to move around. These lasting designs manifest functional excellence and aesthetical lightness that have been proved in real environments over several generations. This variant of the Pyramid Table features a steel-sheet base with a rectangular oak tabletop to create a functional and uncluttered expression. Its light, stackable design and hardwearing quality make it suitable for use in educational institutions, corporate environments and private homes. Available in a variety of wood finishes and base colours.

Dutch-born Wim Rietveld (1924-1985) was an industrial furniture designer. He studied Industrial Design at The Hague Academy in 1950, before becoming head of design at Gispen in 1953. In 1958, he started working at De Cirkel, a manufacturer of steel furniture that had merged with the Ahrend group in 1939. Here he met Friso Kramer, and together they developed a number of iconic design collaborations, including the Result Chair in 1958. Rietveld also designed the Pyramid Tables and Chairs for Ahrend in 1960. Rietveld was known for his functionalist chairs, tables, and storage systems, but he also designed agricultural machinery, boats and trains. Alongside his design work, Wim Rietveld also lectured at the Royal Academy and the Technical University in Delft. Together with Ahrend, HAY has reproduced the Result Chair and Pyramid Table series.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
