- Multifunctional sofa and daybed characterised by generous dimensions and quilted forms
- The solid wooden legs elegantly lift the sofa and daybed from the floor
- Available as a two- and three-seater sofa, a daybed, and an ottoman, in a wide variety of fabric and leather options
- Daybed can be supplemented with Quilton Daybed Cushion in different fabrics and leather options
- Suitable for a wide variety of private and public environments

# QUILTON LIFT DESIGN BY DOSHI LEVIEN

Described by designers Doshi Levien as a 'quilted landscape sofa system', Quilton serves as a central platform for living, working, socialising, and relaxing. The Quilton Lift Collection combines the series' generous dimensions and sculpted forms with solid wooden legs that elegantly lift the furniture to create a light, contemporary expression. The finely-detailed quilting encapsulates the softness and volume of the foam and wadding seats, creating exceptional comfort. Available as two- and three-seater sofas, an ottoman, and daybed with supplementary cushions – all variants are offered in different upholstery and wooden leg options that make it suitable for a wide range of domestic and public spaces.

London based design studio Doshi Levien has a strong reputation for creating design that is both technically advanced and imbued with cultural resonance. For HAY they have also designed the Dapper and Uchiwa Lounge Chairs.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.

**QUILTON DAYBED CUSHION**

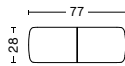

The Quilton Daybed Cushion adds comfort and functionality to the Quilton Lift Daybed. The cylindrical bolster shape supports the neck when lying down and invites relaxation. The inside is filled with fibre balls made of 100% recycled post-consumer polyester and the outer cover is available in a variety of fabric and leather options. Contrasting colours and textiles can be mixed to create an individual look for your daybed.
