DESIGN BY LEON RANSMEIER

HAY

- REVOLVER -

## REVOLVER

Designed for HAY by Leon Ransmeier, Revolver comprises a series of circular tables, stools and bar stools in powder coated steel. The stools and bar stools have a revolving design, featuring a bearing mechanism that enables the seat to rotate 360 degrees. Footrests and hooks on the bar stools and tables add further functionality to the series, while curved edges and a careful sense of symmetry create a modern and uncluttered silhouette. Available in a choice of different colours this versatile series can be coordinated together or used separately in a wide range of public and residential environments.

## LEON RANSMEIER

Leon Ransmeier is an American industrial designer who founded the design practise Ransmeier Inc., in New York in 2010. A graduate of the Rhode Island School of Design, his work has been included in the permanent collection of the San Francisco Museum of Modern Art (SFMOMA) and the Corning Museum of Glass. Very much a hands-on designer, Ransmeier develops full size prototypes of all of his works and is a believer in the idea that "use follows form". For HAY, Ransmeier has designed the Revolver Stool.
