HAY

REVOLVER TABLE

HIGHLIGHTS

- Part of a multifunctional family of bar stools and stools in a variability of colours and sizes
- Its versatile presence makes it suitable for a wide range of public and residential environments
- Qualified for contract use

REVOLVER TABLE DESIGN BY LEON RANSMEIER

Designed to accompany the family of Revolver stools, Leon Ransmeier's Revolver Table is made in powder coated steel and features the same curved edges and sense of symmetry. In terms of functionality, the circular footrest provides support, while hooks on the table legs enable coats and bags to be hung securely underneath. The table is available in different colours, and is suitable for a wide range of cafés, restaurants, and other public environments.

Leon Ransmeier is an American industrial designer who founded the design practise Ransmeier Inc., in New York in 2010. A graduate of the Rhode Island School of Design, his work has been included in the permanent collection of the San Francisco Museum of Modern Art (SFMOMA) and the Corning Museum of Glass. Very much a hands-on designer, Ransmeier develops full size prototypes of all of his works and is a believer in the idea that "use follows form". For HAY, Ransmeier has designed the Revolver Stool.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC™-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
