

WOODY

PRODUCT FACT SHEET

WOODY

DESIGN BY HAY, 2009

Woody was originally designed for inventory use, but after much demand this ladder-inspired shelving system was soon put into commercial production. Woody's beauty lies in its open simplicity and industrial expression that leaves construction parts and joint details exposed. Woody is available in several different sizes and can be used as a free-standing shelving system, against a wall or as a room divider.

HIGHLIGHTS

- Ladder-inspired shelving system in different sizes.
- Available in solid oak and powder coated steel.
- Suitable for a wide variety of private and public environments.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise our environmental impact. We optimise the use of sustainable materials such as recycled materials, FSC-certified wood and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability and safety.
