- 3 models named SPIN
- Position options available
- 41 colours

A Montana TV & Sound furniture is a design piece maintaining its function and aesthetic value over time. Enjoy your high resolution TV and crisp surround sound without the clutter of cables, remote controls, and other electronic devices and accessories.

The TV & Sound series is designed to hide electronics, but not signal that it does – a TV & Sound furniture that does not look like it. For example, it can easily be transformed into a sideboard.

With the Montana TV & Sound system you can tailor solutions to your specific needs. Design to elegantly hide away electronics by using the perforated retractable doors. Place wire ducting and slot for cable passes inside the furniture to manage cables in the unit or design a storage and display piece using Montana drawers and doors. Finally, choose your favourite colour, preferred depth and position.

The series is certified with the Danish Indoor Climate label as well as the official EU Ecolabel.

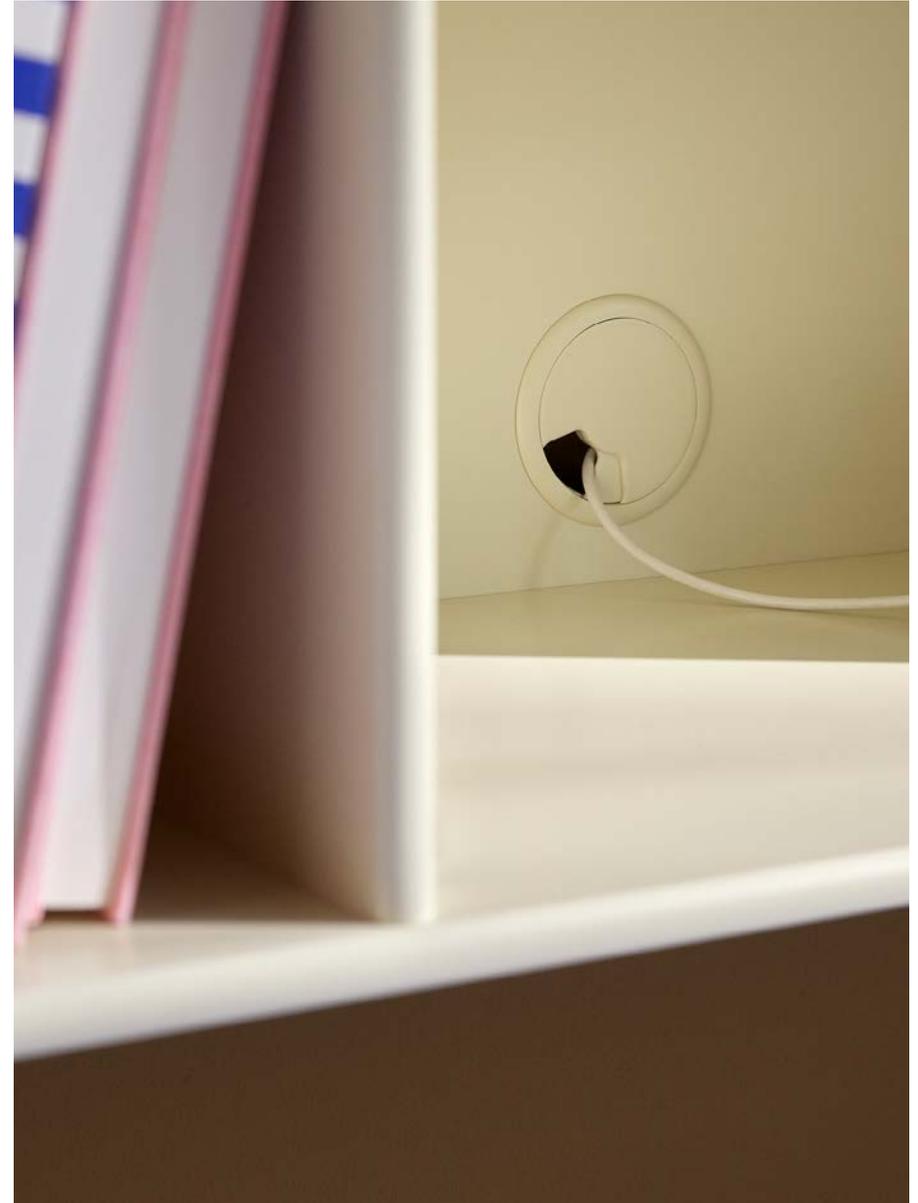

- 14 empty TV & SOUND units to configure from
- Wire ducting follows the colour of the module
- Predefined slot for cable pass in partitions
- Slot for cable pass in partitions – should be placed after components are decided.

### New products and components

- New TV & Sound unit \*32
- Cable management – cut out for cables in room dividers

The new TV & Sound Selection assortment makes it easy for the customer to choose the perfect solution for their needs. Whether it is a furniture for their TV, HiFi gear, conference solution or LP record collection. Or a need for decluttering and hiding cables, remote controls, gaming devices, headphones etc.

Vinyls and record players have experienced an upswing in the market and especially the younger generation has integrated record players and vinyls into their homes.

The Selections assortment consists of 3 pre-configured LP/Vinyl storage furniture and 4 pre-configured TV & Sound furniture. The assortment is available in all 41 Montana colours, but with limited positions.
