

ACX

Antonio Citterio, 2023

vitra.

ACX is the tenth office swivel chair that Vitra has developed in collaboration with Antonio Citterio. With its automatic synchronised mechanism, the compact ACX offers maximum comfort for every user – while exhibiting a distinctly non-technical appearance. The construction, materials, production, logistics and maintenance of ACX are designed to achieve a long life cycle with the smallest possible carbon footprint.

The ACX mechanism automatically adjusts to a wide range of user weights: even

lightweight and heavier individuals can sit down and enjoy instant comfort and optimum support throughout the full scope of movement, without having to adjust anything except the seat height. That makes ACX particularly suitable for environments in which dynamic collaboration processes have replaced sitting for long periods in the same chair.

The design of ACX features a limited number of components, which simplifies service and maintenance. The parts are made of recycled materials whenever possible – up to 60% depending on the model – and can be easily separated and recycled again at the end of the product's life. Depending on the chosen model, ACX is therefore up to 100% recyclable.

ACX has a casual and relaxed appearance: with its clean lines and choice of

knitted fabrics in a wide selection of colours, it functions as a design element in the office – instead of a necessary addition tolerated for the purpose of ergonomics.

ACX is the ideal chair in any setting that calls for healthy ergonomic seating with an understated inviting aesthetic along with a focus on longevity and compliance with stringent ecological standards.

ACX is available in three versions: ACX Soft, ACX Mesh and ACX Light.

ACX Mesh

Antonio Citterio, 2023

vitra.

ACX Mesh differs from the two other models in the task chair family – ACX Light and Soft – in that its backrest has a knitted fabric cover. This semi-transparent mesh textile is made of recycled polyester and comes in a choice of seven colours – which combined with either a dark or light frame enables numerous variants. The seat cover can be selected in a complementary knitted fabric or in the textile Plano.

Materials

- **Office swivel chair in accordance with EN 1335 and with Ergonomic Seal of Approval.**
- **EN 1335-1:** variant in accordance with Type A of the EN 1335-1:2020+A1:2022 standard available on request. Always without armrests or with 3D armrests, greater seat depth adjustment (7 cm instead of 5 cm) and with height-adjustable lumbar support.
- **Seat mechanism:** synchronised mechanism with automatic weight adjustment and two backrest resistance settings (hard or soft). Equipped as standard with seat height and seat depth adjustment. Optionally available with or without synchronised forward tilt (can be disengaged). Mechanism can be locked in upright sitting position. Seat mechanism matches the frame colour (deep black or soft grey).
- **Seat upholstery:** polyurethane foam. Knit or fabric seat cover.
- **Backrest:** back frame with semi-closed shell and slightly transparent knit cover. Frame made of polypropylene (deep black or soft grey). Optional height-adjustable lumbar cushion.
- **Armrests:** height-adjustable armrests or 3D armrests with adjustable height, width and depth. Armrest supports made of polyamide in deep black or soft grey (to match frame colour). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Available either with fixed armrests in polypropylene (deep black or soft grey to match frame colour) or without armrests.
- **Base:** five-star base made of polyamide in deep black or soft grey (to match frame colour), with double castors (Ø 60 mm).
- **Packaging:** standard delivery assembled in plastic bag.

ACX Soft

Antonio Citterio, 2023

vitra.

ACX Soft stands out from the other two models in the ACX family – Light and Mesh – in that its backrest has a padded knit cover. This soft comfortable textile made of recycled polyester lends the task chair a particularly inviting appearance. Available in a choice of seven colours, the knitted fabric can be combined with a light or dark chair frame, allowing for a wide variety of configurations. The seat cover can be selected in a complementary knitted fabric or in the textile Plano.

Materials

- **Office swivel chair in accordance with EN 1335 and with Ergonomic Seal of Approval.**
- **EN 1335-1:** variant in accordance with Type A of the EN 1335-1:2020+A1:2022 standard available on request. Always without armrests or with 3D armrests, greater seat depth adjustment (7 cm instead of 5 cm) and with height-adjustable lumbar support.
- **Seat mechanism:** synchronised mechanism with automatic weight adjustment and two backrest resistance settings (hard or soft). Equipped as standard with seat height and seat depth adjustment. Optionally available with or without synchronised forward tilt (can be disengaged). Mechanism can be locked in upright sitting position. Seat mechanism matches the frame colour (deep black or soft grey).
- **Seat upholstery:** polyurethane foam. Knit or fabric seat cover.
- **Backrest:** back frame with semi-closed shell and quilted knit cover with upholstered effect. Frame made of polypropylene (deep black or soft grey). Optional height-adjustable lumbar cushion.
- **Armrests:** height-adjustable armrests or 3D armrests with adjustable height, width and depth. Armrest supports made of polyamide in deep black or soft grey (to match frame colour). With PU-foam-free (F) pads in basic dark (for frame colour basic dark) or dim grey (for frame colour soft grey). Available either with fixed armrests in polypropylene (deep black or soft grey to match frame colour) or without armrests.
- **Base:** five-star base made of polyamide in deep black or soft grey (to match frame colour), with double castors (Ø 60 mm).
- **Packaging:** standard delivery assembled in plastic bag. On request and at extra charge: delivery assembled in cardboard box or semi-assembled in compact box (final assembly steps by trained specialists).

ACX Light

Antonio Citterio, 2023

vitra.

ACX Light is the entry-level model in the task chair family and available only in black. It differs from ACX Mesh and Soft through its backrest, which has a standard netweave cover. Combined with a seat in the technical spacer fabric Silk Mesh, the chair is designed to offer pleasant comfort and facilitate air circulation.

Materials

- **Seat mechanism:** synchronised mechanism with automatic weight adjustment and two backrest resistance settings (hard or soft). Equipped as standard with seat height and seat depth adjustment. Optionally available with or without synchronised forward tilt (can be disengaged). Mechanism can be locked in upright sitting position. Seat mechanism matches frame colour (deep black).
- **Seat upholstery:** polyurethane foam. Seat cover in Silk Mesh spacer fabric, colour nero.
- **Backrest:** back frame with semi-closed shell and transparent netweave cover. Frame made of polypropylene in deep black. Optional height-adjustable lumbar cushion.
- **Armrests:** height-adjustable. Armrest supports made of polyamide in deep black. With PU-foam-free (F) pads in deep black. Optionally available without armrests.
- **Base:** five-star base in polyamide (deep black) with double castors (Ø 60 mm).
- **Packaging:** standard delivery assembled in plastic bag. On request and at extra charge: delivery assembled in cardboard box or semi-assembled in compact box (final assembly steps by trained specialists).

Plano Heavy use, F30 (Seat ACX Mesh, ACX Soft)

vitra.

Plano is a robust plain weave with a flat, even texture. The wide palette of duotones with new, delicate washed-out shades includes many relatively neutral hues, a good number of which are coordinated with the Hopsak colour range. Thanks to its durability and longevity, Plano is also an ideal choice for office furnishings.

Plano is available in 39 colours.

Material	100% polyester
Weight	265 g/m ² (7.8 oz/y ²)
Width	142 cm +/- 2 cm (56")
Abrasion resistance	80,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

 97 red/coconut	 63 red/poppy red	 80 coffee	 03 parchment/ cream white		

Silk Mesh Heavy use (ACX Light)

Silk Mesh is a three-dimensional spacer fabric. Thanks to the air cells in the regular honeycomb structure, the fabric not only provides a comfortable cushioning effect but also ensures a pleasant seating climate. Silk Mesh is extremely robust and well suited for use in office environments.

Material	33% polyamide, 67% polyester
Weight	300 g/m ² (8.8 oz/y ²)
Width	170 cm +/- 3 cm (67")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet
